

✓ 3er mini proyecto: Barra de desplazamiento

```
1 import tkinter as tk
2 ventana = tk.Tk()
3 ventana .title('Barra de desplazamiento' )
4 ventana .geometry ('400x200' )
5 marco = tk.Frame(ventana )
6 marco.pack(padx = 10, pady = 10)
7 scrollbar = tk.Scrollbar (marco)
8 scrollbar .pack(side = tk.RIGHT, fill =
9 tk.Y)
10 lista = tk.Listbox (marco, yscrollcommand
11 = scrollbar .set)
12 for i in range(100):
13 lista.insert (tk.END, f'Elemento
14 {i+1}')
15 lista.pack(side = tk.LEFT, fill =
16 tk.BOTH)
17 scrollbar .config (command = lista.yview)
18 ventana .mainloop ()
```
